Qliq Contact List

The screenshot displays the QliqCONNECT interface. At the top, the user 'Alexander, John' is shown as 'Online'. Below this is a navigation bar with a menu icon, a profile icon, a messages icon, and a plus sign. A search bar is located below the navigation bar. On the left, a contact list is visible under the heading 'My qliqNetwork'. The main area shows the profile of 'Benzoni, Tom', a Physician, with contact information including email, mobile number, and work number. A 'Start New Conversation' button is present. A context menu is open over the plus sign in the navigation bar, listing options: 'Change Presence', 'Change avatar', 'Invite Contact', and 'Text Non-Qliq User'. A separate panel shows presence options: 'Online', 'Do Not Disturb', and 'Away'. Annotations with arrows point to various elements: 'Log out' points to the menu icon, 'Search Contacts' points to the search bar, 'Recent Messages' points to the messages icon, and 'Start a new conversation' points to the 'Start New Conversation' button.
